Atacama Copper Corporation (formerly 1246773 BC Ltd.)
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
For the Six Months Ended June 30, 2023 and 2022
(Unaudited – Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Atacama Copper Corporation (formerly 1246773 B.C. Ltd.) (the “Company”) was incorporated under the Business Corporations Act of British Columbia on April 8, 2020. The Company’s registered and records office and head office is located at 550-800 West Pender Street, Vancouver, BC, V6C 2V6. The principal business of the Company is to identify, explore and evaluate mineral properties in Chile. The Company holds mining concessions through its ownership of the El Cofre and Placeton projects in Chile. The success of the Company will be dependent on obtaining the necessary financing to evaluate these projects.

The common shares of the Company began trading on the TSX Venture Exchange (“TSXV”) on September 7th, 2021 under the symbol “ACOP”.

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and settle its obligations in the normal course of business. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing through the capital markets.

During the six months ended June 30, 2023, the Company incurred a loss of \$849,529 and, as of June 30, 2023, the Company had an accumulated deficit of \$7,152,247. The Company may be required to delay discretionary expenditures if additional financing cannot be obtained on reasonable terms. Failure to obtain additional financing when required may result in the loss of some, or all, of the Company’s exploration and evaluation assets (Note 5 & 6). These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting, using accounting policies consistent with IFRS. Certain disclosures required by IFRS have been condensed or omitted in the following note disclosures as they are disclosed or have been disclosed on an annual basis only. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2022 which have been prepared in accordance with IFRS. The accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company’s annual financial statements, unless otherwise stated.

Basis for measurement

These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value. All dollar amounts presented are expressed in Canadian Dollars unless otherwise specified. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

For the Six Months Ended June 30, 2023 and 2022
(Unaudited – Expressed in Canadian Dollars)

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these condensed interim consolidated financial statements.

a. Basis of consolidation

These condensed interim consolidated financial statements include the financial statements Atacama Copper Corporation, Atacama Cobre Ltd., 2311548 Alberta Ltd. Agencia en Chile (“Agencia en Chile”), Aconcagua Minerals SpA (“Aconcagua”) and Cobalt Chile SpA (“Cobalt Chile”). All intercompany transactions and balances have been eliminated upon consolidation. All of the Company’s subsidiaries are wholly owned.

Control exists when the Company has the power to directly or indirectly govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken in account in the assessment of whether control exists. Subsidiaries are consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date on which control ceases.

b. Functional currency and presentation currency

The consolidated financial statements for the Company and its subsidiaries are prepared using their functional currencies. Functional currency is the currency of the primary economic environment in which an entity operates. The functional and presentation currency of the Company and its subsidiaries is the Canadian dollar.

c. Foreign exchange

Transactions in foreign currencies are initially recorded at the functional currency rate at the date of the transaction. At each statement of financial position date, monetary assets and liabilities are translated using the period-end foreign exchange rate. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when acquired. All gains and losses on translation of these foreign currency transactions are included in profit or loss.

d. Key sources of estimation uncertainty and critical judgments

Judgements, estimates and assumptions are continually evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The significant judgments, estimates and assumptions made by management in applying the Company’s accounting policies are consistent with those applied to annual financial statements.

e. Recent accounting pronouncements

There are no new and amended standards that are applicable to the business of the Company.

4. AMALGAMATION

On August 23, 2021, 2311548 Alberta Ltd. (“548 AB”) completed its amalgamation agreement (“Amalgamation”) with 2330281 Alberta Ltd (“AmalCo”), a wholly owned subsidiary of 1246773 BC Ltd. (“773”). Pursuant to the Amalgamation, 773 issued 20,000,000 common shares to acquire 100% of the issued and outstanding shares of 548 AB. As a result, the shareholders of 548 AB obtained control of 773, effecting an arm’s length Reverse Takeover (“RTO”).

Upon completion of the transaction, 773 changed its name to Atacama Copper Corporation. As the RTO did not meet the definition of a business under IFRS, the RTO was outside of the scope of IFRS 3, Business Combinations, and was accounted for as a share-based payment transaction in accordance with IFRS 2, Share based Payments

("IFRS 2"). Any difference between the fair value of the shares deemed to have been issued by 548 AB and the fair value of 773s' identifiable net assets acquired represents the value of the public listing received by 548 AB.

The consideration received was the fair value of the net liabilities of 773, which on August 23, 2021 was \$224,817. The amount was calculated as follows:

| | Amount |
|---|------------------|
| Consideration paid: | |
| 6,150,000 shares issued (valued at \$0.50 per share) (Note 8) | \$ 3,075,000 |
| Transactions costs | 167,603 |
| Total consideration | 3,242,603 |
| Less: net liabilities acquired | |
| Cash | 28,094 |
| Amounts receivable | 336,523 |
| Accounts payable and accrued liabilities | (589,434) |
| Net liabilities assumed | (224,817) |
| Listing expense | \$ 3,467,420 |

The consideration was measured at the fair value of the shares that 773 would have had to issue to the shareholders of 548 AB (6,150,000 common shares), to give the shareholders of 548 AB the same percentage equity interest in the combined entity that results from the RTO had it taken the legal form of 773 acquiring 548 AB.

5. ACQUISITIONS

Aconcagua and Cobalt Chile Acquisition – The Placeton Project and El Cofre Project

On March 12, 2021, 548 AB entered into a series of transactions with 773, AmalCo, Aconcagua Minerals SpA ("Aconcagua") and Cobalt Chile SpA ("Cobalt Chile") that resulted in 773 indirectly acquiring the rights to the El Cofre, Los Naranjos, Caballo Muerto and the Placeton Projects located in Chile.

As part of the transactions 548 AB acquired all of the issued and outstanding shares of Aconcagua and Cobalt Chile and then amalgamated with AmalCo (Note 4). 548 AB issued a total of 17,000,000 shares to the shareholders of Aconcagua and Cobalt Chile in exchange for their shares in these entities, as well as an assignment of amounts due to related parties from Aconcagua.

The purchase price allocation of Aconcagua and Cobalt Chile was as follows:

| | Aconcagua | Cobalt Chile | Total |
|---|---------------------|---------------------|---------------------|
| Shares issued | 8,076,180 | 8,923,820 | 17,000,000 |
| Total consideration paid (valued at \$0.50 per share) | \$ 4,038,090 | \$ 4,461,910 | \$ 8,500,000 |
| Cash | \$ 953 | \$ 873 | \$ 1,826 |
| Accounts payable and accrued liabilities | (85,668) | (115,561) | (201,229) |

| Total consideration received | \$ 4,038,090 | \$ 4,461,910 | \$ 8,500,000 |

6. EXPLORATION AND EVALUATION ASSETS

Aconcagua holds the rights to the Placeton Project which consists of the Placeton, Caballo Muerto and Los Naranjos projects. There is an existing 2% net smelter royalty ("NSR"), held by Gino Zandonai the Senior VP Business Development, over all minerals produced from 39 exploitation tenements included in the Placeton Project.

9. FINANCIAL INSTRUMENTS

Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

Cash is carried at fair value using a Level 1 fair value measurement. The recorded values of GST receivable, and accounts payable and accrued liabilities approximate their carrying values due to their short-term to maturities which is the amount presented on the statement of financial position.

Financial risk factors

The Company's risk exposures and the impact on the Company's financial statements are summarized below:

Credit risk

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash and GST receivable due from the Government of Canada. The Company limits its exposure to credit loss by placing its cash with major financial institutions. The Company believes its credit risk with respect to GST receivable is minimal.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2023, the Company had a working capital balance of \$275,835.

Interest rate risk

The Company is exposed to interest rate risk to the extent that the cash maintained at the financial institution is subject to floating rates of interest. The interest rate risk on cash is not considered significant.

Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash, and accounts payable and accrued liabilities, denominated in Chilean Pesos. A 10% fluctuation between the Canadian dollar against the Chilean Peso would impact profit or loss by approximately \$2,663.

Price risk

The Company has limited exposure to price risk with respect to equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market.

10. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support any business transaction. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company is largely dependent upon external financings to fund its operations. In order to carry out its exploration operations and to continue to support its general administrative activities, the Company will spend its existing working capital and raise additional funds as needed.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ended June 30, 2023. The Company is not subject to externally imposed capital requirements.

11. SEGMENTED INFORMATION

The Company has one reportable segment, being the evaluation and exploration of mineral properties in Chile. All non-current assets are held in Chile.

12. SUBSEQUENT EVENT

On July 14, 2023, the Company reported the sudden and unexpected passing of its CFO, Eduardo Yu, who was a key member of the small management team at the Company. The Company has commenced a search for a new CFO.
